## **Directors' Report**

Alzheimer's Australia Dementia Research Foundation – Victoria ("the company") was registered on 4 May 2012. Your directors present this report on the company for the financial period from 4 May 2012 to 30 June 2013.

### **Directors**

The names of each person who has been a director during the period and to the date of this report are:

- Mr Michael Woodward (appointed May 2012)
- Mr Ian Knight (appointed May 2012)
- Mr David Galbally AM QC (appointed May 2012, resigned 10 October 2013)
- Mr Graeme Samuel AC (appointed 10 October 2013)
- Mr Neil Samuel (appointed May 2012)
- Mr Stephen Hawke (appointed May 2012, resigned 29 August 2012)
- Dr Amy Brodtmann (appointed June 2012)

Directors have been in office since the start of the financial period to the date of this report unless otherwise stated.

### **Principal Activities**

The principal activity of the company during the financial period was to support Dementia Research through the provision of Research Grants.

### **Short-term and Long-term Objectives**

The company's short-term objectives are to:

- support Dementia Research through the development of a corpus of funds from which Research grants can be allocated.

The company's long-term objectives are to:

- continue to grow the investment pool and to utilise the interest earned on the funds to provide Research grants; and
- become a major contributor to the Dementia Research field through the expansion of fundraising activities to increase the pool of funds available.

### **Strategies**

To achieve its stated objectives, the company has adopted the following strategies:

- the company has determined that in any given year it will calculate the amount of Research grants to be offered in that year by using a figure of 5% of the investment funds available on the 1<sup>st</sup> of January of that year; and
- the company will maintain a minimum investable funds balance of approximately \$2m to ensure that funds are always available to offer annually as grants.

## **Notes to the Financial Statements For the Period Ended 30 June 2013**

The financial statements cover Alzheimer's Australia Dementia Research Foundation – Victoria as an individual entity, incorporated and domiciled in Australia. Alzheimer's Australia Dementia Research Foundation – Victoria is a company limited by guarantee.

Alzheimer's Australia Dementia Research Foundation – Victoria was registered on 4 May 2012. The financial statements cover the financial period from 4 May 2012 to 30 June 2013.

### **Note 1: Summary of Significant Accounting Policies**

The directors have prepared the financial statements on the basis that the company is a non-reporting entity because there are no users who are dependent on its general purpose financial statements. These financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the Corporations Act 2001. The company is a not-for-profit entity for financial reporting purposes under Australian Accounting Standards.

The financial statements have been prepared in accordance with the mandatory Australian Accounting Standards applicable to entities reporting under the Corporations Act 2001 and the significant accounting policies disclosed below, which the directors have determined are appropriate to meet the needs of members.

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs unless otherwise stated in the notes. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise. The amounts presented in the financial statements have been rounded to the nearest dollar.

#### **Accounting Policies**

##### **(a) Income Tax**

No provision for income tax has been raised as the entity is exempt from income tax under Div 50 of the Income Tax Assessment 1997.

##### **(b) Revenue**

Interest revenue is recognised as it accrues using the effective interest method, which for floating rate financial assets is the rate inherent in the instrument. Dividend revenue is recognised when the right to receive a dividend has been established.

Donations and bequests are recognised as revenue when received.

Revenue from the rendering of a service is recognised upon the delivery of the service to the customers.

Grant revenue is recognised in profit or loss when it is controlled. When there are conditions attached to grant revenue relating to the use of the those grants for the specific purposes it is recognised in the statement of financial position as a liability until such conditions are met or services provided.

##### **(c) Cash and Cash Equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with banks, and other short-term highly liquid investments with original maturities of three months or less.

ABN 51 158 180 477

## Notes to the Financial Statements For the Period Ended 30 June 2013

### Note 1: Summary of Significant Accounting Policies (cont'd)

#### (d) Financial Instruments

##### Initial recognition and measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions of the instrument. For financial assets, this is equivalent to the date that the company commits itself to either purchase or sell the asset (ie trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transactions costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

##### Classification and subsequent measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost. When available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the effective interest method.

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying amount with a consequential recognition of an income or expense item in profit or loss.

Fair value is determined based on current bid prices for all quoted investments.

##### (i) Financial assets at fair value through profit or loss

Financial assets are classified at "fair value through profit or loss" when they are held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss.

##### (ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss through the amortisation process and when the financial asset is derecognised.

##### (iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the company's intention to hold these investments to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss through the amortisation process and when the financial asset is derecognised.

# Alzheimer's Australia Dementia Research Foundation - Victoria

ABN 51 158 180 477

## Notes to the Financial Statements For the Period Ended 30 June 2013

### Note 1: Summary of Significant Accounting Policies (cont'd)

#### (d) Financial Instruments (cont'd)

##### (iv) Available-for-sale investments

Available-for-sale financial assets are non-derivative financial assets that are either not capable of being classified into other categories of financial assets due to their nature or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with any remeasurements other than impairment losses and foreign exchange gains or losses recognised in other comprehensive income. When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are classified as non-current assets when they are not expected to be sold within 12 months after the end of the reporting period. All other available-for-sale financial assets are classified as current assets.

##### (v) Financial liabilities

Non-derivative financial liabilities other than financial guarantees are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss through the amortisation process and when the financial liability is derecognised.

#### Impairment

At the end of each reporting period, the company assesses whether there is objective evidence that a financial asset has been impaired. A financial asset (or a group of financial assets) is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a "loss event") having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial instruments, a significant or prolonged decline in the market value of the instrument is considered to constitute a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtor or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if the management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance accounts.

When the terms of financial assets that would otherwise have been past due or impaired have been renegotiated, the company recognises the impairment for such financial assets by taking into account the original terms as if the terms have not been renegotiated so that the loss events that have occurred are duly considered.

**ABN 51 158 180 477**

## **Notes to the Financial Statements For the Period Ended 30 June 2013**

### **Note 1: Summary of Significant Accounting Policies (cont'd)**

#### **(d) Financial Instruments (cont'd)**

##### **Derecognition**

Financial assets are derecognised where the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability, which is extinguished or transferred to another party, and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

#### **(e) Critical Accounting Estimates and Judgments**

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the company.

##### **Key estimates – Impairment**

The company assesses impairment at the end of each reporting period by evaluating conditions and events specific to the company that may be indicative of impairment triggers.

#### **(f) New Accounting Standards for Application in Future Periods**

The AASB has issued new and amended accounting standards and interpretations that have mandatory applicable dates for future reporting periods and which the company has considered the effects and decided not to early adopt. Due to the nature of the company's activities, it does not expect them to significantly impact the company's financial statements.

## Directors' Declaration

In accordance with a resolution of the directors of Alzheimer's Australia Dementia Research Foundation – Victoria, the directors have determined that the company is not a reporting entity and that this special purpose financial report should be prepared in accordance with the accounting policies described in Note 1 to the financial statements.

The directors of the company declare that:

1. The financial statements and notes, as set out on pages 5 to 14, are in accordance with the Corporations Act 2001 and:
  - a. comply with Australian Accounting Standards; and
  - b. give a true and fair view of the company's financial position as at 30 June 2013 and of its performance for the period ended on that date in accordance with policies described in Note 1 to the financial statements.
2. In the directors' opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Associate Professor Michael Woodward  
Chair

Signed in Hawthorn, this 10<sup>th</sup> day of October 2013.
